Reasons comment:

I oppose this development. Coal should not have a future in New Zealand. We need to

reduce use of fossil fuels and emissions with the threats of climate change. This coal could supply Fonterra boilers - our big dairy exports need to be fully sustainably procured. There are also environmental concerns about these proposals. The rebuild after the Covid 19 crisis gives us a chance to focus on renewable energy sources, greater sustainability in our manufacturing processes and cause less damage to the natural environment.
