Reasons comment:

My grandfather and great uncles died from mining coal. My neighbours have asthma and

respiratory failure from mining coal. My rivers and land are dying because of mining coal. Our greenhouse gas emissions are a record 418ppm in 2020, so we must stop mining coal. It is a toxic industry. No more!!!

Consent comment:

Oppose all expansion of coal mines, and transition to more efficiency and better technology for our national needs. Drying milk for international export is a failing business model. Oppose bathurst in NZ. Invest in NZ families and businesses.
