Reasons comment:

Canterbury Coal is a well established coal mine that generates job opportunities for its

locals. The coal mine contribute to the economy, support the local community in various projects and producing coal to local businesses Canterbury coal is absolutely committed to rehabilitation of any earth works to restore its flora and fauna to its natural state. The company is also committed to the health, safety and security of all its employees. Without Canterbury coal, coal needs to be source from elsewhere over the country to supply the local businesses and also the job losses of its employees.

Consent comment:

I wish the council can grant these consent to keep Canterbury coal in business and the employees employed. Looking at the current situation in the industry and all the job losses, we need to support all local businesses and build a stronger NZ.
