Reasons comment:

The damage to the local wetland will be detrimental to the ecosystem. The coal is being

used to support dairy farming which is damaging our environment. There is an urgent need to reduce the burning of coal. It is morally wrong to add to climate change problems. We have water-powered electricity that should be used instead. Bathurst has a poor record of following rules, so should not be trusted to comply with environmental safety measures.

Consent comment:

Deny the application for Bathurst Coal mine resource consent.
