Subject: You received a submission for Bathurst Mine Resource Consent
Date: Monday, 18 May 2020 10:43:49 AM

Form Summary	
Name	Ben Tyas
Email	
Multiple choice	I oppose allowing further earthworks and discharges of contaminants into water and air as part of the expansion of the Canterbury Coal Mine., I oppose Bathurst Mining Limited being granted retroactive consent for uncontested earthworks within Canterbury Coal Mine., I support actions that may be required to mitigate the impacts of the existing harms caused by the mine.
Why do you oppose the mine?	NZ must acknowledge our participation in climate change and reduce coal usage. The consents requested are highly environmentally intensive and in no way represent sustainable land management in Canterbury. Please consider current and future generations when investigating this consent request and understand that forgoing this is the only responsible choice for climate, environmental and social qualities.
