Reasons comment:

Kia ora, I have spent a lot of time with family and friends around the Selwyn District,

particularly in Darfield, and Springfield during winter ski expeditions, and hiking trip. I oppose the proposed Resource Consents for the following reasons: primarily the negative impacts they will have on the Tara Stream/Wetland which I have visited and drawn water from on a number of occasions; air pollution effects from mine discharge to the surrounding area; the taking of fresh water from the water table; increased erosion of sensitive land and vegetation; visual scaring of the landscape; risks of dam infrastructure failure to surrounding land and waterways; and the increased heavy traffic associated with increased industrial activity and construction on already dangerous and busy roads; The mine lighting is already a nuisance in the relatively un-polluted light region, especially on still nights when hiking in the area, any increase in light pollution would greatly detract from the region. I oppose all the proposed Resource Consents and am happy to present my opposition at a public hearing. I will be directly affected by the proposed mining activity when I spend regular time in the region. Thank you for considering my submission. Nga mihi, Geoffrey Wigley BE(Hons) Structural Engineer Mobile: +64-27-298-1034

Consent comment:

Do not grant any of the proposed Resource Consents to Bathurst Coal Limited
