Reasons comment:

When Bathurst first set up their business in that area i felt strongly enough against their

actions to go down from Golden Bay to protest against what, in the face of climate change, was already an unsustainable project. I can see from the present pictures that the land has been degraded badly since then. And now these irresponsible business people expect to expand on this degradation of our country regardless of the fact that no further coal needs to be mined for dirty energy . There are more responsible energy sources available that are sustainable. So there is no excuse for this expansion of the environmentally disastrous venture . I believe Canterbury has supported in favour of environmental responsibility. I want to see this decision upheld in order to support the climate and local fish and fauna species that will otherwise suffer further.

Consent comment:

Turn down any attempt by Bathurst to progress their polluting coal exploitation.
