Form Summary	
Name	Vince Eichholtz
Email	
Multiple choice	I oppose allowing further earthworks and discharges of contaminants into water and air as part of the expansion of the Canterbury Coal Mine., I oppose Bathurst Mining Limited being granted retroactive consent for uncontested earthworks within Canterbury Coal Mine., I support actions that may be required to mitigate the impacts of the existing harms caused by the mine.
Why do you oppose the mine?	Coal use should be passed in favour of alternative climate friendly options such as solar, wind etc. The ongoing environmental is not sustainable nor is it consistent with spirit of a declaration of a climate emergency regardless of whether this has been ratified by all in law. continuing the same practices will lead to the same outcomes, so is unthinkable to expand this practice. Only a fool repeats the same activity on the blind hope of a different porcine
