Reasons comment:

I oppose each of these resource consent applications that are being sought for the

Canterbury Coal Mine. My reason for opposition is because I object to the irreversible damage this coal mine is having on the local and global environment.

Consent comment:

Decline all consent applications for expanded work or time at Canterbury Coal Mine. In addition I ask Selwyn District Council and ECAN to put in place policies that will; a) lead to a reduction in coal extraction and burning b) encourage energy producers to convert to providing clean energy solutions that do not damage our natural environment. c) encourage consumers to switch to clean and efficient energy sources.
