<b>Multiple choice</b>	I oppose allowing further earthworks and discharges of contaminants into water and air as part of the expansion of the Canterbury Coal Mine., I oppose Bathurst Mining Limited being granted retroactive consent for uncontested earthworks within Canterbury Coal Mine., I support actions that may be required to mitigate the impacts of the existing harms caused by the mine.
<b>Why do you oppose the mine?</b>	Canterbury's water resources are already degraded and councils should be (as they purport to be) focusing on ways to restore them rather than allowing more contaminants to be discharged into waterways. New Zealand as a whole is aiming, under the Zero Carbon Amendment Act, to reduce its carbon emissions and it seems directly counterproductive to that goal to allow mining activities to expand.
