Reasons comment:

At this time when the Christchurch City council and ECAN have declared a climate

emergency, we should not be expanding coal mining. Bathurst Coal need to wind down operations and transition to cleaner more renewable businesses. Canterbury continues to face water quality issues and degraded waterways - we do not need to be removing water and adding waste. Our wetlands contain irreplaceable biodiverse ecosystems - Canterbury has lost all too many of these, and it takes centuries to reestablish native flora and fauna. Destruction of more wetlands in pursuit of coal is unacceptable.

Consent comment:

Deny Bathurst Coal resource consents for expansion and continuation of current consents.
