**Reasons comment:**

The extraction and burning of fossil fuels is immoral and foolish in this day given climate

change is at tipping point. As well, the potential and very real threats to our wetlands is horrific. We need to preserve, protect and nurture life and ecosystems not destroy or damage them heedlessly and needlessly. It is the duty of Ecan to look after the environment in its care not sacrifice it to monetary gain.

**Consent comment:**

Stop the expansion of the mining operations - or even better stop the mining.
