Reasons comment:

I oppose the granting of these consents for two main reasons. Firstly, the environmental

disruption in general, and specifically the negative impact on kowaro. Secondly, the downstream effects of coal extraction which will contribute to climate change - we must keep carbon in the ground and move towards a green, sustainable economy. Continuing to extract coal, and expand coal mines, is not an acceptable future. Issuing consents for coal extraction with 20+ year duration is irresponsible and these consents must be declined.
