Reasons comment:

We believe we need to urgently limit the impacts of Climate Change. Mining fossil fuels,

such as coal, is directly affecting contributions to global carbon emissions. Addressing climate change is a benefit to people of the current and future generations. This mine expanding is a contrary to future generations needs and the Councils onw declaration. 90% of the coal from this mine is used by local dairy companies who along with Fonterra say they are phasing out this energy source. So why this source needs to expand is beyond comprehension.

Consent comment:

TO decline the consent to expand.
