- CRC203016: support | NOT to be heard | will NOT consider joint hearing
- RC185622: support | NOT to be heard | will NOT consider joint hearing

---

**Reasons comment:**

We believe Bathurst coal should continue to operate as coal is a major energy source and

supplies coal to many industries and businesses throughout the Canterbury region employing local people and using local business for supply and maintenance. The mine must be able to operate successfully and profitably within the resource consents that are applied to it, to make the resource consents so restrictive as to make mining impossible would be counter productive to the both the mining company and the wider business community

---

**Consent comment:**

We wish the consent authority to grant fair and equitable consents for both the mining company and the environment
