Subject: You received a submission for Bathurst Mine Resource Consent
Date: Monday, 18 May 2020 11:22:42 AM

Form Summary	
Name	Rob Stowell
Email	
Multiple choice	I oppose allowing further earthworks and discharges of contaminants into water and air as part of the expansion of the Canterbury Coal Mine., I oppose Bathurst Mining Limited being granted retroactive consent for uncontested earthworks within Canterbury Coal Mine., I support actions that may be required to mitigate the impacts of the existing harms caused by the mine.
Why do you oppose the mine?	First, this mine is about a kilometer from where we filmed this: https://youtu.be/JWX7DI8JrGA Kowaru are greatly threatened and we have an obligation to preserve them. Further - it is madness to suck water from the Canterbury plains, damaging and destroying aquifers and reducing overall water quality, only to burn dirty coal to remove that water, so we can sell milk powder as cheap primary produce. It is also completely mad that we cannot take climate change - the gravest threat we currently face - into account when considering environmental impacts. We know we have to stop burning coal. Increasing and expanding its use is killing people and destroying lives. Wanton and reckless. Please say no.
