---

**Reasons comment:**

We live in Glentunnel and have had continual noise disturbance at night due to the Mine.

The noise/vibration testing for the above consents does not include testing inside residents homes especially those that have provided details over time of their noise complaints through the Council. The vibration noise is the most noticeable and disturbing inside the homes. It is a constant humming noise that disturbs sleep. Having the operation going 24 hours a day is affecting our quality of life, sleep and causing health issues for our family.

---

**Consent comment:**

To only operate daytime hours, no night time operations or anything left running that could cause noise disturbances.
