Provide detail of your enquiry here *

Hello,

How on earth can you allow, approve the expansion of an already huge local (Canterbury) coal mine? this is 2020 not the 1800's! If the Resource Management Act needs changing have it changed. You would, will be seen as totally incompetent and 100% irresponsible if you approve this disastrous expansion. You should be moving pro actively to shut this business down – permanently! Think of our, YOUR grand children, climate change is already out of control.

I look forward to your reply.

I'm sending this message also to Duncan Webb our local M.P.

Thank you,

Geoff Venning
