- CRC203016: oppose | NOT to be heard | will NOT consider joint hearing
- RC185622: oppose | NOT to be heard | will NOT consider joint hearing

---

**Reasons comment:**

Firstly, It defies all logic to allow the expansion, even the continuation, of coal mining and

burning in the light of current climate warming. It is a known fact that burning fossil fuels is the greatest contributor to climate warming. The NZ dairy factories who buy and use 90% of Bathurst coal, must be refurbished to enable them to use only renewable resources for power. Secondly, Bathurst Coal has already breached its current consent conditions, allowing contaminants into Bush Gully Stream, this is totally unacceptable and shows a complete disregard for the environment.

---

**Consent comment:**

That none of the 6 new consents applied for, be granted to Bathurst Coal Limited to extend its coal mining operation.
