Proposed Change 1 to Chapter 6 of the Canterbury Regional Policy Statement.

Refer Waimakariri Regional Plan - Planning Map 104 (page 36) Appendix 3

We (Gary Skerten, Susanna Michell, Glen Morgan, David Madeley) write to recommend a change of land use for the land East of Island Road from William Coup Road back to the Northern Motorway.

This land is currently zoned rural but we propose it would be better utilised if rezoned to residential.

Our reasoning is as follows:

- . This land is very close to the Kaiapoi township. It is within walking (biking) distance of the town and the Kaiapoi High School. (Directly on the other side of the Northern motorway)
- . The recent development of Brian Storer's Dairy Farm to Silverstream Village shows that productive land has already been given permission to be developed for residential use.
- . Our lifestyle blocks are 1 x 4.4 & 3 x 2.2 hectares so the land is really only good for "small time" intensive farming at best. Currently it is not productive in the sense of "rural farming". A better land use would be urban residential since there is a demand to free up land for more residential sections.
- . To us it seems pointless to develop East Kaiapoi due to the liquefaction experienced during the earthquake period. Our land had no such problems so it is obvious to us that any urban expansion should be to the West of Kaiapoi.
- . It is more than likely that the Proposed Change 1 to Chapter 6 of the Canterbury Regional Policy Statement as notified by Environment Canterbury (Resource Management Act 1991) will be successful so the zoning will be able to be changed.
- . Waimakariri District Zoning is due for review.
- . Although zoned 'rural' none of the properties on our block are used for 'primary production' as such. Current use could be classified as 'hobby farms'. Recent activities include a mixture of hay making, grazing sheep and beef, and training dogs.
- . Waimakariri District is currently growing very rapidly. Many extra houses are likely to be needed in the future. Silverstream Village is nearing the end of its development and more land will need to be sourced for housing.
- . With the Governments push to lower carbon emissions walking and cycling to local facilities would be practical alternatives to driving. This land is so close to Kaiapoi and all its facilities..
- . Growth should be around the existing urban areas so there is no need to duplicate services. We have town supply water going down William Coup Road and the sewer network goes down Ohoka Road. And the 5G network is being installed along Island Road.
