Reasons comment:

Noise - I value the quietness of where I live, when the racecourse is operating we hear it and I don't mind that but I do mind the noise of earthmoving machinery and I work long hours and when I am home I like to sit in the garden where it is peaceful. Dust - I have issues with hayfever already and the dust would make sitting outside in the garden a

hazard to my health. Plus I cycle in this area and the dust would mean i am unable to do so in my neighbourhood. Roads would busier - I am a cyclist and there are enough trucks on the roads I cycle on already, I would not feel safe if there were more trucks. House Values - my parents bought their home a year ago and if the quarry goes ahead their house will go down in value and will make their peaceful area somewhere they dont want to live.

Consent comment:

I wish the consent authority to decline all notified and unnotified consent applications in relation to this matter. If a quarry is granted permission then I would like the following conditions imposed - Full independent monitoring of Dust, Noise and Water. No storage of aggregate materials or any others on site, No crushing or grinding on site. No extension of the term.
