Reasons comment:

I am opposing to the consents applied for by Taggart Earthmoving Limited as I personally believe that a quarry in this close proximity to residential subdivisions is unsafe and inconsiderate to myself and others residing in these areas. My concerns are as follows; negative consequences on our health, reduction in property value and the adverse effects of

dust and noise pollution as a result of the aggregate extraction. I also strongly believe that as a result of these concerns, my ability and power to move house will be diminished as a result of potential property devaluation, meaning that I am essentially being forced to live near this proposed quarry against my will. To expand, when I purchased my property, there was no mention at all of a potential quarry for aggregate extraction and in fact there was no mention from Taggart Earthmoving Limited or Waimakariri District Council until around late-October 2020. I do not want to live near a quarry, however as time progresses, it appears I am not being given a choice. To summarise, my submission details my personal concerns of the proposed aggregate extraction quarry near my residence and my personal stance on how I believe that Taggart Earthmoving Limited and Waimakariri District Council are prioritising financial gain over the residents of Rangiora who may have to work and live near the proposed quarry.

Consent comment:

Reject the consents that Taggart Earthmoving Limited have applied for.
