- CRC204143: oppose | WANT to be heard | WILL consider a joint hearing
- CRC211629: oppose | WANT to be heard | WILL consider a joint hearing
- RC205104: oppose | WANT to be heard | WILL consider a joint hearing

Reasons comment:

Water Contamination - There is a risk of water contamination in the wells on the racecourse site if Taggarts get the go ahead. Flooding - I believe that Taggarts would be better quarrying further upstream on the Ashley as there is a build up of shingle/aggregate in the river making Rangiora vulnerable to flooding. Dust - it is well documented that

quarrying produces Silica Dust which is hazardous to the health of the vulnerable.
Wind/Dust - would affect the healthy lifestyles of the local town, health, children.
Residents of Rangiora - Taggarts have not properly consulted on what the people want.
Noise, we hear noise in our area from Taggarts yard now, this will be 1000 times worse if in the racecourse. Weather data - I believe the data Taggarts produced in support of their application is flawed and not based on local data

Consent comment:

I wish the Consent Authority to Decline all the notified consent applications and any other applications that Taggarts have applied for in relation to this matter if they are unnotifiable. Conditions - If Taggarts are to get the go ahead then the following conditions should be imposed - Only virgin natural fill is to be used. The Racecourse is not to be used as a storage or crushing plant. No extension of term. Independent Dust , Noise and Water Quality Monitoring
