Reasons comment:

The rationale behind granting this consent is illogical. The negative impact to those in the vicinity are significant including dust, noise and Safety. The residents of the surrounding areas were there long before taggarts decided to build a quarry within very close proximity to the residential zone, and the ongoing impact of this will significantly affect the existing

and future residential environments for the simple purpose of financial gain for one company. I heavily oppose this submission from taggarts and would expect that all rangiora residents would be impacted by this selfish act.

Consent comment:

Decline on all fronts and tell them to up the river a number of km. Or better still leave town completely
