Reasons comment:

We only moved into our family home February 2020, this is a newly built sub division and there is a covenant WE all have to adhere to for nine years. We were never informed about ANY quarry talks at the racecourse some 700 meters from our home. We do not want the noise pollution of some 250 vehicle movements PER DAY, the constant noise of

machinery even on a Saturday morning, not to mention the dust that WILL cover our homes and we will breathe in everyday, Taggerts cannot guarantee they will have the dust pollution under control they cannot guarantee this will not lessen our quality of life. We don't want this quarry we never asked for it or knew about it and we would NOT have built here had we known. This is a classic case of old school money and bullying from a large corporate company based on greed with no consideration the impact this will have on the environment, surrounding homes and families living near this disaster of a self centered greedy company. we are worried about the health of our selves physically, mentally and emotionally, our allergies will worsen and the constant drone of machinery will have a huge impact on our mental health. No one who lives in this area is for this these people who are trying to make this happen don't live here and this will not impact their quality of life at all, it will just grow their bank accounts. Please take note of our rights of how we want to live not be told this will be in our back yard. Our house prices will fall not grow - we did not ask for that to happen when we built this, it is our investment for our family's future. Bottom line WE DONT WANT A QUARRY IN OUR BACK YARD!

Consent comment:

to say no to this quarry it is outrageous and stupid where else in the world is a stone quarry in the middle of a race course right beside community of homes!
