Subject: CM: RC 205104 / to Operate a Quarry Proposal at 309 West Belt / RANGIORA
Date: Monday, 9 November 2020 4:48:47 PM

Hello

As a land owner at Rangiora I wish to oppose the proposed application by Taggart Earthmoving Ltd to operate a quarry in such close proximity to our property. Our property is situated within 600 m in a direct line from the proposed quarry. The reasons for opposing this are explained below.

The prevailing winds will carry both noise and dust onto all properties in our subdivision (Arlington). This will also cause visual pollution and has the potential to leave residual sediment on roofs and gutter systems. Heavy truck and trailer movements associated with the quarry would be more frequent on the main roads around the quiet residential suburb. Obviously, we are opposing this as one of the main issues will be a possible devaluation in our property and potentially affecting any resale value.

Thank you for taking on board our concerns and if you have any queries please contact us.

Yours sincerely
MERRIN DEVELOPMENTS LTD
