Reasons comment:

This work will create noise and dust in my subdivision. Regardless of measures to mitigate effects, this will directly affect the value of our surrounding properties. Even with as dedicated access road, traffic on Westbelt will no doubt increase as vehicles travel to and from river road access point. My children cross Westbelt for school and it's assistant busy

enough. This will create noise at my property. We already hear the races so I know that excavation noise will also travel to our property and we don't want this in a suburban street.
