Reasons comment:

This is a dangerous undertaking right on the edge of Rangiora plus very unnecessary. The dangers of disturbing the substrate so close to an established subdivision, especially as this area is old single river bed are many. In Canterbury we have all the earthquakes which are still happening. We had a 4.5 quake three days ago, it is a dangerous undertaking. There

are plenty of rural spots along the river to excavate.

Consent comment:

To deny authority for Taggart Ltd to excavate the site in the resource consent.
