Are you submitting on behalf of an organisation? No, I'm submitting as an individual

Are you willing to tell us more about yourself? Yes

Which age category are you in? 40-64 years old

Which suburb or area do you live in?

Do you think we've prioritised the right issues and opportunities? Yes

Which of the proposed options would you like to see us progress with? Option 1: statutory work, prior commitments and accelerating key initiatives

It is important that we hear what you would like to keep in the plan, what you think should be removed, and anything that you think we have missed?

Low-Emission free public transport is an absolute must, we need to reduce the number of cars on our roads which will benefit our health, the environment, and create a greener image which could help accelerate tourism bringing more jobs.

Protecting our water is also extremely important, the Dairy industry is decimating our fresh water in Canterbury. Riverbeds run dry now, what water is there is polluted. Farmers should be incentivized to move away from Dairy and to more environmentally friendly practices.

I do not think anything should be removed, nor has anything major been missed.

Do you generally support the activities proposed in the following portfolios:

Water and Land	Yes
Biodiversity and Biosecurity	Yes
Climate Change and Community Resilience	Yes
Air Quality, Transport and Urban Development	Yes
Regional and Strategic Leadership	Yes

Do you have any further comments on the activities proposed in specific portfolio/s (please select all those you wish to comment on):

Is the proposed increase in rates affordable for your household? Option 1 is affordable

Is the proposed increase in rates affordable as a whole for the Canterbury community? Yes

Any further comments on affordability for the community?

The public needs to be informed of the long term gains due to these changes, asking for more money without giving context will be a hard sell. I understand the issues because I have time to look into these things but many do not, or do not know where to look.

Not focusing on the environment now will just pass the cost down the line, eventually someone will have to pay for it and it will only get more expensive as time goes on.

Do you support the changes we're proposing to how we apply Uniform Annual General Charges? Yes

Would you support the use of borrowing for operating expenditure to offset some of the first year rates? Yes

Do you support the rationale and proposed changes in the draft Fees and Charges Policy? Yes
