Is the proposed increase in rates affordable for your household? Option 2 is affordable

Any further comments on affordability for your household?

I'm a renter, not a ratepayer, but feel option 2 would be affordable, but option 1 is what is needed if we intend to clean up waterways, and begin to clean the air we breath in daily.

Is the proposed increase in rates affordable as a whole for the Canterbury community? Don't know

Any further comments on affordability for the community?

Sure some in the community cannot afford it, but know we all need to do more.

Do you support the changes we're proposing to how we apply Uniform Annual General Charges? Yes

Any further comments on Uniform Annual General Charges?

no

Would you support the use of borrowing for operating expenditure to offset some of the first year rates? Yes

Any further comments on the use of borrowing for operating expenditure?

I feel borrowing the money to operate would lessen the pain of rate rises, as stated instead of an immediate pain caused by a rise during covit-19 , a gradual rise across 13 years would lessen the pain to those whom are already struggling.

Do you support the rationale and proposed changes in the draft Fees and Charges Policy? Don't know
