Are you submitting on behalf of an organisation? No, I'm submitting as an individual

Are you willing to tell us more about yourself? Yes

Which age category are you in?

Which suburb or area do you live in?

Do you think we've prioritised the right issues and opportunities? No

What do you feel are the significant challenges and opportunities we face?

Producing a realistic economic easy to use transport system that goes where the people wish to go and to ask everyone where they want to go rather than 2nd guessing as is the case at present. Work with farming community's rather than dictate scenarios after all they are rate payers too.

Which of the proposed options would you like to see us progress with? Other option (please specify)

Do not put up our rates as food power and doctors visits have all gone up and we are unable to carry the burden of any more unnecessary rates rises

It is important that we hear what you would like to keep in the plan, what you think should be removed, and anything that you think we have missed?

Climate change should be removed
Biodiversity is an unrealistic option
Encourage home owners to plant eco friendly and bio friendly thru local garden centre's.
Developers should be encouraged thru national govt to do the same
The farming community should do the same with IRD support
ECANS should be paid by the Government to reward and enforce only

Do you generally support the activities proposed in the following portfolios:

Water and Land	No
Biodiversity and Biosecurity	No
Climate Change and Community Resilience	No
Air Quality, Transport and Urban Development	No
Regional and Strategic Leadership	No

Do you have any further comments on the activities proposed in specific portfolio/s (please select all those you wish to comment on):

- . Water and Land
- . Biodiversity and Biosecurity
- . Climate Change and Community Resilience
- . Air Quality, Transport and Urban Development
- . Regional and Strategic Leadership

Water and Land portfolio comments:

Ecan has failed to keep our water and land fit for purpose with land being stripped and the water quality being poor

Climate Change and Community Resilience portfolio comments:

Unproven science a natural cyclic event look after our land plant more vegetation
Prevent ridiculous wasting of our water through Asian water bottling plants
Of massive irritation

Air Quality, Transport and Urban Development portfolio comments:

Ecan need to liase with the council and rate payers regading what is needed and
What is affordable rather than guessing without scientific proof
realistic economic easy to use transport system that goes where the people wish to go and to ask
everyone where the want to go rather than 2nd guessing as is the case at present.

Regional and Strategic Leadership portfolio comments:

Step back and ask the people who live and play in the area.

Is the proposed increase in rates affordable for your household? Neither option is affordable

Any further comments on affordability for your household?

We cannot sustain more idealistic rates increases in fact reduce your over the top
Salaries and vehicle usage so as to prevent more stress issues within our community

Is the proposed increase in rates affordable as a whole for the Canterbury community? No

Any further comments on affordability for the community?

Wasting money on new bus colour schemes and larger busses which are not required is totally senseless
Smaller busses for off peak would save heaps on fuel RUC and emissions
As the people what they require and you will be on a winner

Do you support the changes we're proposing to how we apply Uniform Annual General Charges? No

Would you support the use of borrowing for operating expenditure to offset some of the first year rates? No

Any further comments on the use of borrowing for operating expenditure?

Live within your means

Do you support the rationale and proposed changes in the draft Fees and Charges Policy? No

Any further comments on the Fees and Charges Policy?

We pay enough now no more please
