i am here to comment on the proposed free buses, which i think is a good idea or though a flat rate of \$2 might be better but before opening the flood gates you need to upgrade the bus stop facilities, especially in rolleston. the main pick up point is kidman street there is a little shelter there that is open to the elements from all 4 sides, when it rains the seat is wet and its dark and cold only about 6 people can fit in there especially at level 2, most mornings theres about 30 people waiting for the bus including the school children. so if you want people to use the busses which is a great idea and the system works welll you just need to make the facilities a bit more comfortable Thank You. also the buses need to trave through the east side of rolleston where i live the closest bus stop is 1km away.
