Are you submitting on behalf of an organisation? No, I'm submitting as an individual

Are you willing to tell us more about yourself? No

Which age category are you in? -

Do you think we've prioritised the right issues and opportunities? No

What do you feel are the significant challenges and opportunities we face?

Climate change and freshwater issues need to be prioritised. Public transport is not utilised by all. Freshwater is. Quite frankly most of the greater Canterbury region does not use public transport, we have cars... this will not change and thus, your spending on improving the infrastructure and services is a terrible idea if you want full community buy in and continued support. I am well aware of the issues you face and manage as my background is in environmental policy, planning etc and you fail to get community buy in due to your overarching "this is what's happening" approach, get your heads out of the gutter, hands out of citizens pockets and begin to work for the people not against them. Then and only then will you make real change and get the community on your side and working with you without hatred.

Which of the proposed options would you like to see us progress with? Option 2: statutory work and prior commitments

It is important that we hear what you would like to keep in the plan, what you think should be removed, and anything that you think we have missed?

Public funding of buses needs to be removed, pay as you use as per most things in life. Ngai Tahu relations cost are far too high, if they want to be involved they should be doing so for free! Overall you need to look at internalising issues to those who cause them.

Do you generally support the activities proposed in the following portfolios:

Water and Land	Yes
Biodiversity and Biosecurity	Yes
Climate Change and Community Resilience	Yes
Air Quality, Transport and Urban Development	No
Regional and Strategic Leadership	No

Do you have any further comments on the activities proposed in specific portfolio/s (please select all those you wish to comment on): . Regional and Strategic Leadership

Regional and Strategic Leadership portfolio comments:

Need for a transparency, and streamlining.

Is the proposed increase in rates affordable for your household? Neither option is affordable

Is the proposed increase in rates affordable as a whole for the Canterbury community? No

Do you support the changes we're proposing to how we apply Uniform Annual General Charges? No

Would you support the use of borrowing for operating expenditure to offset some of the first year rates? No

Any further comments on the use of borrowing for operating expenditure?

If you're asking this question, even proposing this option your whole authority needs to be dissolved. Where are your economist and understanding of current financial conditions? Absolutely terrible idea... I highly believe a call off no confidence may be called upon Ecan and its staff very soon with such terrible performance.

Do you support the rationale and proposed changes in the draft Fees and Charges Policy? No

Where do you live in Canterbury? Select your district below: Christchurch city including Banks Peninsula
