Are you submitting on behalf of an organisation?	No, I'm submitting as an individual
Are you willing to tell us more about yourself?	Yes
Which age category are you in?	0–14 years old
Which suburb or area do you live in?	
Do you think we've prioritised the right issues and opportunities?	Yes
Which of the proposed options would you like to see us progress with?	Option 2: statutory work and prior commitments

It is important that we hear what you would like to keep in the plan, what you think should be removed, and anything that you think we have missed?

The reason I chose Option 2 as the option to lead us for the next decade is because after suffering 4 lockdowns, the last thing the people of Canterbury need is spending more money for the sake of the climate. I read that Option 2 would cost the taxpayer less and that is why I believe this is the option to go with, even though it isn't the council's preferred option.

Do you generally support the activities proposed in the following portfolios:

Water and Land	Yes
-----------------------	-----

Biodiversity and Biosecurity	Yes
Climate Change and Community Resilience	No
Air Quality, Transport and Urban Development	No
Regional and Strategic Leadership	Yes

Do you have any further comments on the activities proposed in specific portfolio/s (please select all those you wish to comment on): . Climate Change and Community Resilience

Climate Change and Community Resilience portfolio comments:

While I was reading the Climate Change & Community Resilience PDF file, I understood that this plan wants to charge the farmers more money. I don't think this is fair. I don't like how farmers who are the backbone of this country are being punished when companies like Fonterra pump out 1.17 million tonnes of the climate warming gas seems to go unnoticed.

Is the proposed increase in rates affordable for your household? Neither option is affordable

Any further comments on affordability for your household?

Ultimately, I don't believe either option is affordable for anyone. I only chose Option 2 because it is slightly more affordable over the course of a decade.

Is the proposed increase in rates affordable as a whole for the Canterbury community? No

Do you support the changes we're proposing to how we apply Uniform Annual General Charges? Yes

Would you support the use of borrowing for operating expenditure to offset some of the first year rates? Yes

Do you support the rationale and proposed changes in the draft Fees and Charges Policy? Don't know

Where do you live in Canterbury? Select your district below: Timaru district

Should we continue investing in MyWay by Metro, Timaru's on-demand public transport service, after the trial period is completed? No

Any further comments on MyWay by Metro? No

I don't think it is sustainable for MyWay to continue. I am not doubting its convenience but I just don't believe it can continue with a \$2 flat rate for every passenger. If this price increases then I will reconsider.
