Water and Land portfolio comments:

ECAN has failed in its message for looking after Water/Land, tough controls on pollution through Dairy Waste, Stocking numbers and reducing Nitrogen loading are all areas that need urgent attention.

Air Quality, Transport and Urban Development portfolio comments:

The transport section should be removed from Ecan's control, ECAN needs to focus on the environment not bus time tables and lay of roads. Subsidising buses is a waste of money and time, why aren't there cycle lanes to get from Rolleston/Lincoln to town?

Is the proposed increase in rates affordable for your household? Neither option is affordable

Any further comments on affordability for your household?

With increasing values of properties rates are already going up let alone add a further increase. Rates should be no more than 5%, if you can't stick to a budget then you need to look at wages (internally) reduction in numbers, get back to basics.
