From  
Camille Jamieson

To whom it may concern;

In a recent Timaru Herald 'ratepayers may face a 24% rise in Ecan rates'!!?I am a ratepayer on the minimum wage- Ecan needs to be realistic.

Our rivers are still unswimmable (not to mention toxic to dogs): what does Ecan actually do?

Ecan could halve the synthetic fertilisers and concentrate on growing different types of plants, herbs etc in the grass to reduce the creation of nitrates leaching into the soil and the rivers, plus reducing cattle numbers by a quarter. What happens when a severe water drought hits this industry?

I look forward to a reply and hope that I do not have to send this email into the public arena if no progress is made by Ecan within 12 months.

Much appreciated,

Camille Jamieson

Sorry team: correct email address for reply is

I won't be writing to the Timaru Herald etc but please fix this shocking damage to our natural environment.
