I feel the best thing we could do for the environment is to put more time, funding and energy into the promotion of encouraging people to plant tree's. it wouldn't take much but if everyone in Canterbury each planted 1 single tree per year then the environment will benefit dramatically. It is a good thing for parents to do with there children and/or any individual as it will have a lasting effect on them as well as the environment. whether it be a fruit tree, native tree, floral tree or any tree it doesn't matter but I feel there should be a lot more emphasis on supporting each individual to just plant a tree.

Do you generally support the activities proposed in the following portfolios:

Water and Land	Yes
----------------	-----

Biodiversity and Biosecurity	Yes
Climate Change and Community Resilience	Yes
Air Quality, Transport and Urban Development	Yes
Regional and Strategic Leadership	Unsure

Do you have any further comments on the activities proposed in specific portfolio/s (please select all those you wish to comment on):

Is the proposed increase in rates affordable for your household? Neither option is affordable

Is the proposed increase in rates affordable as a whole for the Canterbury community? No

Any further comments on affordability for the community?

rather than the government building houses and running out of land which is inevitably going to drive accommodation costs up, I think more focus should be put on building apartment buildings which are multiple stories high and able to accommodate a lot more people with a lot less land.

Do you support the changes we're proposing to how we apply Uniform Annual General Charges? Don't know

Would you support the use of borrowing for operating expenditure to offset some of the first year rates? Don't know

Do you support the rationale and proposed changes in the draft Fees and Charges Policy? Don't know
