The Air Quality is important for the communities health and well being. Having a good transport system is important to our older community and people with disabilities, to be able to keep their independence and continue to be able to socialize. The new trial of My Way is a fantastic idea and these communities are really loving this, from what I have seen and heard.

Should we continue investing in MyWay by Metro, Timaru's on-demand public transport service, after the trial period is completed? Yes

Any further comments on MyWay by Metro? Yes

I feel you have introduced an amazing service and taking it away would be a disservice to those who now depend on it. It is unique to Timaru. People have said that they feel safer when being dropped off at night as it is so close to home. The price is good value for the public. They look better driving around and not spewing out dirty diesel.
