Are you submitting on behalf of an organisation? No, I'm submitting as an individual

Are you willing to tell us more about yourself? Yes

Which age category are you in? 25-39 years old

Which suburb or area do you live in?

Do you think we've prioritised the right issues and opportunities? Yes

Which of the proposed options would you like to see us progress with? Option 1: statutory work, prior commitments and accelerating key initiatives

It is important that we hear what you would like to keep in the plan, what you think should be removed, and anything that you think we have missed?

Prioritising the environment and slowing climate change is most important, along with listening to the community and protecting our freshwater and land. However, this proposal directly contradicts ECan's allowing Cloud Ocean to extract and sell Cantabrians' water in China, without ANY benefit to Cantabrians at all. To actually deliver what you propose, ECan needs to review this relationship ASAP.

Do you generally support the activities proposed in the following portfolios:

Water and Land	Yes
----------------	-----

Biodiversity and Biosecurity	Yes
Climate Change and Community Resilience	Yes
Air Quality, Transport and Urban Development	Unsure
Regional and Strategic Leadership	Unsure

Do you have any further comments on the activities proposed in specific portfolio/s (please select all those you wish to comment on):

- . Water and Land
- . Air Quality, Transport and Urban Development

Water and Land portfolio comments:

Reassess, with consultation in the community, the relationship with Cloud Ocean. Who actually benefits here, as it's certainly not Cantabs.

Air Quality, Transport and Urban Development portfolio comments:

To encourage more people to use public transport, it would be a good idea to make sure it's safe, convenient and comfortable. I tried taking the bus to work (Blue Line) and in the height of summer, most buses do not have any air conditioning, and many don't even have windows open. It made me feel incredibly queasy and I'm sure anyone getting motion sickness would be most unpleasant for all other passengers and the driver. Because of that, I went back to driving. Temperature control and air circulation is very important.

Other initiative/s (please specify) Christchurch

Review relationship with Cloud Ocean. We are not a Chinese province and we shouldn't be bending over backwards to accommodate a Chinese company that is making money off our water.
