Air Quality, Transport and Urban Development portfolio comments:

In Christchurch urban area free buses need to be trialled. This is in preference to trialling the MYWay scheme which is already being trialled in Timaru. The main aim of public transport is to keep commutors who only use their cars to go to and from work and to get them onto buses. Therefore buses to work and home need to be frequent and cheap. But I would also suggest being free for two years at least to see if this increases patronage. (Use the proposed money for MYWAy.)

Is the proposed increase in rates affordable for   Neither option is affordable
