Are you submitting on behalf of an organisation? No, I'm submitting as an individual

Are you willing to tell us more about yourself? Yes

Which age category are you in? 40-64 years old

Do you think we've prioritised the right issues and opportunities? Don't know

Which of the proposed options would you like to see us progress with? Other option (please specify)

please go back to some old plans , check with the locals on what they actually want , and listen to the fishermen and the locals that use the area. it seems the ecan is , oh gosh , run by morons , don't listen , I am not sure what they are but it seems that most items are overlooked and not done or not done properly. the water quality and water flow in the most of the canterbury rivers are abismal , disgusting and the flow needs to keep up so the water can oxygenate and get the fish back up the rivers. there was a proposal about 10 years ago but still not followed - about the rivers and flow etc. It just seems to be a huge mess and needs to be run by either farmers / dairy / cow / sheep farmers and fisherpeople.

Do you generally support the activities proposed in the following portfolios:

Water and Land	Unsure
Biodiversity and Biosecurity	Unsure

Climate Change and Community Resilience	Unsure
Air Quality, Transport and Urban Development	Unsure
Regional and Strategic Leadership	Unsure

Do you have any further comments on the activities proposed in specific portfolio/s (please select all those you wish to comment on): . Water and Land

Water and Land portfolio comments:

see my comments on this up the document . thanks for letting me rant - this is outrageous and just mind boggling to most of the people in the canty area.

Is the proposed increase in rates affordable for your household? Neither option is affordable

Any further comments on affordability for your household?

we can't afford another another another rates rise - its outrageous the last 10 years and we / most of us , don't see a huge change in our roads etc. especially when dumb ass bike lanes are put in . and we still have people in wet homes , broken homes (insurance business) and no parking for the , now 3 hospitals on one chunk of land . (MOH and city problems either way)

Is the proposed increase in rates affordable as a whole for the Canterbury community? No

Do you support the changes we're proposing to how we apply Uniform Annual General Charges? Don't know

Would you support the use of borrowing for operating expenditure to offset some of the first year rates? Yes

Any further comments on the use of borrowing for operating expenditure?

but don't put up our rates til the things are actually done that were to be done from the last plan. or get new mngt or get rid of ecan all together. (but I am not sure who would take over - who manages this outside of canterbury???)

Do you support the rationale and proposed changes in the draft Fees and Charges Policy? Yes

Where do you live in Canterbury? Select your district below: Christchurch city including Banks Peninsula
