- . Biodiversity and Biosecurity
- . Climate Change and Community Resilience
- . Air Quality, Transport and Urban Development
- . Regional and Strategic Leadership

Water and Land portfolio comments:

I would like more work done on nitrates in our water. I think the nitrate levels need to be reduced significantly for human health. I would also like to see land use better controlled so that valuable farm land does not become housing estates and no further irrigation in Canterbury.

Biodiversity and Biosecurity portfolio comments:

I am all in favour for eco sourced natives being planted to increase biodiversity. Fully supportive of more resources going into pest management. I like the idea of contestable funding for environmental groups. I want ECAN to enforce it's rules.

Climate Change and Community Resilience portfolio comments:

Do whatever you can to strengthen our communities and reduce the impacts of climate change.

Air Quality, Transport and Urban Development portfolio comments:

As transport is the number one green house emission in these parts I want more action on transport. More help for EV's, more electric buses, less branding more doing. Public transport from Sumner to Governors Bay.

Regional and Strategic Leadership portfolio comments:

Be the best you can be.....

Is the proposed increase in rates affordable for your household?

Option 1 is affordable

Any further comments on affordability for your household?

I would be prepared to pay more to see real action.

Is the proposed increase in rates affordable as a whole for the Canterbury community?

Yes

Do you support the changes we're proposing to how we apply Uniform Annual General Charges?
