Biodiversity and Biosecurity portfolio comments:

Maintaining the Me Uru Rākau (planting for regeneration programme) as a priority. The allocation of funding proposed for option one will help this programme and attract more participation. Current regeneration projects involve too much public land and overall hectares too low as a proportion of total land in Canterbury.

Option 2 is affordable

Is the proposed increase in rates affordable as a whole for the Canterbury community?

Do you support the changes we're proposing to how we apply Uniform Annual General Charges?

Any further comments on Uniform Annual General Charges?

Targeted rates could be implemented for short term or as a transitional to uniform annual. I would think targeting high revenue generating properties would be a useful and fair policy.
