#### What do you feel are the significant challenges and opportunities we face?

Option 1 is preferred for me but I think there needs to be more focus on two things. Both help Christchurch public transport and should help unlocking the barriers to using public transport. First is new mode and better service by proving rail from Rolleston to Christchurch/Lyttelton and Rangiora to Christchurch/Addington. Along with that is creating direct busses from outer suburbs such as Halswell, Parklands, Sumner, Northwood and Hornby. Second is costs, it is good to see young people protesting for PT to be free, I think it should be free for the all off peak travel and those under 25 and over 60. Also for community card holders and others.

<b>Which of the proposed options would you like to see us progress with?</b>	Option 1: statutory work, prior commitments and accelerating key initiatives
