Water and Land portfolio comments:

care of both waterways and aquifers needs to be of the highest priority at this time and i am encouraged by the policies outlined, but would like to see more urgency in terms of action, for example in the past it has been very disappointing to see so few prosecutions of polluters

Biodiversity and Biosecurity portfolio comments:

i support the policies outlined and would like to see those words translated into more urgent action

Climate Change and Community Resilience portfolio comments:

i support the policies outlined, but would like to see climate change treated as a more urgent focus - the sooner change is initiated the less painful it will need to be

Air Quality, Transport and Urban Development portfolio comments:

public transport in christchurch and canterbury is way below optimal and i would like to see significant spending directed towards fixing it

Regional and Strategic Leadership portfolio comments:

i do not think this area needs the attention or budget outlined - i think ecan can demonstrate and earn its leadership position simply through strong policy and action in the above areas without needing any separate focus on this.
