I would agree with the water and land as long as this plan includes the waterways through Christchurch and the council stands by the last paragraph in the water and land document as I feel that the people that live in each region such as the Hinds plains know the area better than someone sitting behind a desk in the middle of Christchurch. I have been told that some of the ecan councillors and ecan staff

would love to see dairy farming removed from this area. I am not a dairy farmer but know plenty of them.
