Are you submitting on behalf of an organisation? No, I'm submitting as an individual

Are you willing to tell us more about yourself? No

Do you think we've prioritised the right issues and opportunities? No

What do you feel are the significant challenges and opportunities we face?

10 years time, scientist predict a no return earth mess so what do you concentrate on - buses...get everyone a ebike, ecycle and a new fireplace for their houses and plant trees that are tall and leafy next to roads.

Which of the proposed options would you like to see us progress with? Other option (please specify)

work towards saving the environment - plant trees, wildlife.

It is important that we hear what you would like to keep in the plan, what you think should be removed, and anything that you think we have missed?

Remove the word 'Environment' out of your title and 'stewardship' - Belfast bottleplant, loads of plastic in the world floating down rivers, take ownership for end of life products..how many rivers have you altered, changed. Lacks detail of the projects in this long term project and only seems to focus on how you will put up our rates. What did you achieve in the last ten year plan that seems to be missing.

Do you generally support the activities proposed in the following portfolios:

Regional and Strategic Leadership

No

Do you have any further comments on the activities proposed in specific portfolio/s (please select all those you wish to comment on):

Do we get good value currently with all these gold plated projects..should live within your means. Enjoy that church on private land isn't that money better spent on air? So no, you do not deserve anymore money as its clearly being squandered.

Would you support the use of borrowing for operating expenditure to offset some of the first year rates?

No

Any further comments on the use of borrowing for operating expenditure?

Live within your means and stop squandering.
