Are you willing to tell us more about yourself?	Yes
Which age category are you in?	40-64 years old
Which suburb or area do you live in?	
Do you think we've prioritised the right issues and opportunities?	Yes
Which of the proposed options would you like to see us progress with?	Option 1: statutory work, prior commitments and accelerating key initiatives
It is important that we hear what you would like to keep in the plan, what you think should be removed, and anything that you think we have missed?	
Include more tangible targets, outputs and resourcing to achieve. The word 'support' is used a lot without any real definition of the work plan needed to then 'support' others to make changes/comply.

Climate Change and Community Resilience portfolio comments:

Significant investment and bold action now in public transportation, smart urban development, education and awareness will help prevent residents of Canterbury having to pay for and deal with the effects of climate change later due to local governments kicking the can down the road.

Is the proposed increase in rates affordable for your household? Option 1 is affordable

Any further comments on affordability for your household?

We need to invest in clean air and water, biodiversity and low carbon initiatives now, the cost of mitigation later will be much higher.

Is the proposed increase in rates affordable as a whole for the Canterbury community? Don't know

Any further comments on affordability for the community?

ECAN needs to highlight the cost of inaction in many of these areas to ensure people understand the cost/benefit

Do you support the changes we're proposing to how we apply Uniform Annual General Charges? Don't know

Would you support the use of borrowing for operating expenditure to offset some of the first year rates? Yes

Any further comments on the use of borrowing for operating expenditure?

Borrowing rates are cheap at the moment and we need to invest to take action to protect our environment now. The cost of waiting is much higher than borrowing.

Do you support the rationale and proposed changes in the draft Fees and Charges Policy? Don't know
