Are you submitting on behalf of an organisation? No, I'm submitting as an individual

Are you willing to tell us more about yourself? Yes

Which age category are you in? 40-64 years old

Do you think we've prioritised the right issues and opportunities? No

What do you feel are the significant challenges and opportunities we face?

Water and roading provisions, basic services such as waste water disposal, provision of water for domestic and stock usage

Which of the proposed options would you like to see us progress with? Option 2: statutory work and prior commitments

It is important that we hear what you would like to keep in the plan, what you think should be removed, and anything that you think we have missed?

Keep the plan to the basic needs of a community, roading, water and waste disposal, and monitoring. Both ECAN And CCC have debt levels at the upper end of what is acceptable, cut the over spending on the nice to haves, community halls for example

Do you generally support the activities proposed in the following portfolios:

Water and Land	Yes
Biodiversity and Biosecurity	Yes
Climate Change and Community Resilience	No
Air Quality, Transport and Urban Development	No
Regional and Strategic Leadership	No

Do you have any further comments on the activities proposed in specific portfolio/s (please select all those you wish to comment on):

Is the proposed increase in rates affordable for your household? Neither option is affordable

Any further comments on affordability for your household?

Rates rises must be kept in line with wage rates. spending has to be prioritized and wastefulness minimised. There should have been greater push back to govt on the NES for example, the canterbury land and water plan has had considerable time and money already spent, as an example

Is the proposed increase in rates affordable as a whole for the Canterbury community? No

Do you support the changes we're proposing to how we apply Uniform Annual General Charges? Don't know

Would you support the use of borrowing for operating expenditure to offset some of the first year rates? No

Any further comments on the use of borrowing for operating expenditure?

Should be kept to absolute minimum debt levels are already high

Do you support the rationale and proposed changes in the draft Fees and Charges Policy? Yes

Any further comments on the Fees and Charges Policy?

charges must be kept to absolute mimimum, standard increases on a per annum basis are not necessarily needed

Where do you live in Canterbury? Select your district below: Selwyn district
