Would you like to be kept up-to-date with the outcome of this consultation? Yes

How did you find out about giving feedback? . Email

Your information is held and administered by Environment Canterbury in accordance with the Privacy Act 2020 and Environment Canterbury's Privacy Policy.

There is personal information/contact details in my submission I do not want disclosed: No

Groins installed & creek bed cleaned out

The current Groins are deteriorating and being undermined. The beach is in danger of being eroded away by the water flow from the adjacent creek entering the beach and the way the current comes in the bay on the West side and exits the East side. Existing groins are no longer effective and need replacing/repair.

The creek bed should be cleared to assist redirect the water flow from the creek into the beach – [Photos 4]
